Proven track record as a resourceful full-stack developer with extensive experience in JavaScript and cloud platforms including AWS, Azure, and GCP. Skilled in tackling complex problems and crafting innovative solutions. Successfully led and organized teams to achieve optimal outcomes, even under high pressure. Thrives in dynamic environments, demonstrating exceptional adaptability and flexibility while fostering strong collaboration to deliver superior results.

EXPERIENCE

SENIOR FULL STACK DEVELOPER

DigitalQube Marketing Consultancy LLC

Jul 2021 - Present, AE, Abu Dhabi

- **Architected high-performance, scalable full-stack applications** using React, Typescript, Node.js, Postgres, MongoDB, NestJS, and NextJS. Leveraged Tailwind CSS for efficient, responsive design. Integrated communication protocols like RESTful APIs, gRPC, WebSockets, and message queues (RabbitMQ, Kafka) to deliver robust, scalable solutions deployed across AWS and Azure.
- **Drove client growth** by prioritizing data-driven, performant features, demonstrating expertise in leveraging diverse technologies to achieve business goals.
- **Championed continuous innovation** and user-centric design by gathering valuable feedback and implementing strategies for both vertical and horizontal scaling of applications. This approach ensured that products remained innovative and capable of handling increased user demand, ultimately delivering exceptional user experiences.

SENIOR FULL STACK DEVELOPER

Brixio (formerly ITFAQ – Digital Labs)

Aug 2017 - Jun 2021, AE, Dubai

- **Spearheaded high-performing, scalable applications:** Designed and architected software solutions using JavaScript and TypeScript, employing frameworks like NestJS and Fastify for optimal performance and data management. Deployed these applications on cloud platforms, ensuring scalability and global reach.
- **Led efficient development and collaboration:** Collaborated with diverse teams and vendors to identify and implement product improvements. Facilitated code reviews, debugging, and rigorous testing procedures to deliver reliable software solutions.
- **Enhanced user experience with modern web development practices:** Leveraged frameworks such as NestJS and Fastify, along with RESTful APIs, to build user-friendly web interfaces that seamlessly integrated with backend services.

FULL STACK WEB DEVELOPER

Al Dhafra Private Schools Abu Dhabi

Jun 2014 - Jul 2017, AE, Abu Dhabi

- **Boosted Internal Productivity with Custom Web Applications:** Analyzed user and system requirements to design and develop intuitive web applications using JavaScript ES5, Node.js, Bootstrap, HTML5, and CSS3. These applications significantly improved internal tool efficiency, streamlined workflows, and fostered better collaboration across teams.
- **Delivered User-Centric Websites with Modern Technologies:** Collaborated with stakeholders to identify website improvement opportunities. Utilized a powerful combination of JavaScript, Node.js, Bootstrap, HTML5, and Git to enhance website functionality and user experience.

FULL STACK SOFTWARE ENGINEER

FilAm Softwares

Sep 2012 - May 2014, PH, Angeles City

- **Delivered Secure and Reliable Applications:** Analyzed customer project requirements to design robust back-end applications while employing Silverlight and Kendo UI for user-friendly interfaces, and implemented proactive monitoring and predictive maintenance to ensure reliability and security throughout the project lifecycle.
- **Streamlined Development and Enhanced User Experience:** Utilized version control with TSVN for code integrity and collaboration, while leveraging Bootstrap to create clean and responsive user interfaces, resulting in high-quality, efficient software solutions focused on user-centric design.

PROGRAMMER

SourceHOV Philippines

Jan 2011 - Aug 2012, PH, Angeles City

- **Lead the evolution of internal software:** Collaborated with stakeholders to define and implement enhancements for existing .NET Framework applications. Leveraged IIS and MSSQL for efficient deployment and data management. This ensured the software remained modern, scalable, and aligned with evolving business needs.
- **Bridged the gap between users and IoT solutions:** Utilized your JavaScript expertise to develop engaging front-end web applications that interacted with internal IoT systems. This facilitated user interaction, improved data collection/management, and ultimately enhanced the functionality of these solutions.

PROGRAMMER

Voxscript Int.

May 2009 - Dec 2010, PH, Angeles City

- **Delivered Secure and Scalable Government Software:** Developed and maintained mission-critical applications using the .NET Framework for government agencies. Leveraged IIS and MSSQL to ensure secure deployment, robust data management, and adherence to government compliance standards.
- **Modernized Legacy Systems for Improved Efficiency:** Collaborated with government stakeholders to modernize existing software applications. Employed Bootstrap for a user-friendly interface and integrated seamlessly with existing .NET Framework and MSSQL infrastructure.

SKILLS

Programming Languages: C#, JavaScript, SQL, CSS, PHP, TypeScript, HTML, Go Lang

Frameworks: ASP.NET Core, .NET Framework, NestJS, NextJS, Echo, Fibre, Gin, ASP.NET Web API, Umbraco, Sitecore

Libraries: React, jQuery, VueJS, NodeJS, ExpressJS, React Native, Redux

Developer Tools: Git, Docker, VSCode, Visual Studio, npm, shadcn/ui, Node, Neovim

Cloud Computing: AWS, Microsoft Azure, Netlify, Vercel, Kubernetes (K8s), Docker

Databases: MSSQL, MySQL, PostgreSQL, MongoDB, CosmosDB, DynamoDB

Security and Authentication: OpenID, OAuth, JWT, Single Sign-On (SSO), Authorization, Authentication

Database Management: Database Migration, Backup and Restore

Professional/Social Skills: Project Management, Communication, Leadership, Organization, Problem-solving

Languages: English (Fluent)

EDUCATION

Bachelor of Science in Computer Science Angeles University Foundation (Angeles City, Philippines)

Studied computational theory, software design, algorithms, data structures, and user computer interaction..

PROJECTS

insideburjalarab.com | Sitecore, React, Typescript, Rest APIs OCT 2022 - Present

aindubai.com | Sitecore, Razor Pages, Typescript, Rest APIs JUL 2021 - Present

wildwadi.com | Sitecore, React, Typescript, Springboot March 2023 - Present

EMAAR Contactless Ordering System | React, .net 5, Rest APIs 2020

The Original Barracuda Mobile APP and Reward System | .net 3, WebAPI, Restful 2019

Al Zayyat Fresh Mobile APP and Ordering System | .net 3, WebAPI, Restful 2018

Al Mawashi Meat Products UAE and Kuwait | .net 3, WebAPI, Restful 2018

DCAA IIAN | .net core, WebAPI, Razor Pages, jQuery, RestAPI 2017

dhafraschools.com | bootstrap, html5, css3, jQuery, Web Design 2016

NextSPOT by Fotokem | .net, SOAP, jQuery, Web Design 2015
